

Universal Way Lube ISO 68 Safety Data Sheet **Revision Date: 10/28/2024** Universal Way Lube ISO 68

| Section 1. Identification                     |                                     |  |  |  |
|---|-------------------------------------|--|--|--|
| Product identifier                            |                                     |  |  |  |
| Product Identity                              | Universal Way Lube ISO 68           |  |  |  |
| Other means of identification                 | Not Applicable                      |  |  |  |
| Relevant identified uses of the substance of  | or mixture and uses advised against |  |  |  |
|   | See Technical Data Sheet.           |  |  |  |
| Details of the supplier of the safety data sh | neet                                |  |  |  |
| Company Name                                  | Universal Oil Inc.                  |  |  |  |
|   | 265 Jefferson Avenue                |  |  |  |
|   | Cleveland, OH 44113.                |  |  |  |
| Emergency                                     |                                     |  |  |  |
| 24 hour Emergency Telephone No.               | 216-771-4300                        |  |  |  |
| Customer Service:                             | 216-771-4300                        |  |  |  |

Section 2. Hazard(s) identification

# Classification of the substance or mixture under OSHA's Hazard Communication Standard (1910.1200) revised 2024 (GHS revision 7)

The substance is not classified according to the OSHA Hazcom or WHMIS regulations.

# Label elements

The substance is not classified according to the OSHA Hazcom or WHMIS regulations.

### [Prevention]

No GHS prevention statements [Response] No GHS response statements [Storage] No GHS storage statements [Disposal] No GHS disposal statements Other hazards This product contains no PBT/vPvB chemicals. This product contains no endocrine disrupting chemicals.

### Section 3. Composition/information on ingredients

This product contains the following substances that present a hazard within the meaning of the OSHA's Hazard Communication Standard (1910.1200) revised 2024 (GHS revision 7).

| Ingredient/Chemical Designations   | Weight % | GHS Classification | Notes             |  |  |
|--|----------|--------------------|-------------------|--|--|
| Distillates (petroleum), solvent-dewaxed heavy paraffinic                      | 80 - 100 | Not Classified     | No data available |  |  |
| CAS Number: 64742-65-0<br>Synonyms: Distillates (petroleum), solvent-dewaxed   |          |                    |                   |  |  |
| heavy paraffinic   |          |                    |                   |  |  |
| The actual concentration or concentration range is withheld as a trade secret. |          |                    |                   |  |  |

\*PBT/vPvB - PBT-substance or vPvB-substance.

The full texts of the phrases are shown in Section 16.

### Section 4. First aid measures

#### Description of first aid measures

|                     | Universal Way Lube ISO 68  |
|---------------------|--|
| General             | In all cases of doubt, or when symptoms persist, seek medical attention.   |
|                     | Never give anything by mouth to an unconscious person.   |
| Inhalation          | Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, give artificial respiration. If unconscious, place in the recovery position and obtain immediate medical attention. Give nothing by mouth. |
| Eyes                | Irrigate copiously with clean water for at least 15 minutes, holding the eyelids apart and seek medical attention.   |
| Skin                | Remove contaminated clothing. Wash skin thoroughly with soap and water or use a recognized skin cleanser.  |
| Ingestion           | If swallowed obtain immediate medical attention. Keep at rest. Do NOT induce vomiting.   |
| Most important symp | toms and effects, both acute and delayed   |
| Overview            | No specific symptom data available.  |
|                     | Treat symptomatically. See section 2 for further details.  |

# Section 5. Fire-fighting measures

### Extinguishing media

Recommended extinguishing media; alcohol resistant foam, CO2, powder, water spray.

Unsuitable extinguishing media: Do not use; water jet.

Special hazards arising from the substance or mixture

Hazardous decomposition: No hazardous decomposition data available.

### Advice for fire-fighters

As with all fires, wear positive pressure, self-contained breathing apparatus, (SCBA) with a full face piece and protective clothing. Persons without respiratory protection should leave area. Wear SCBA during clean-up immediately after fire. No smoking.

ERG Guide No.

### Section 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

Put on appropriate personal protective equipment (see section 8).

Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

# **Environmental precautions**

Do not allow spills to enter drains or waterways.

### Methods and material for containment and cleaning up

Ventilate the area and avoid breathing vapors. Take the personal protective measures listed in section 8. Contain and absorb spillage with non-combustible materials e.g. sand, earth, and vermiculite. Place in closed containers outside buildings and dispose of according to the Waste Regulations.

### Section 7. Handling and storage

### Precautions for safe handling

Handle containers carefully to prevent damage and spillage. See section 2 for further details. - [Prevention] **Conditions for safe storage, including any incompatibilities** 

Incompatible materials: No available information

See section 2 for further details. - [Storage]

Specific end use(s)

No available information

### Section 8. Exposure controls / personal protection

#### **Control parameters**

|         |            | Expos  | ire   |  |  |  |
|---------|------------|--------|-------|--|--|--|
| CAS No. | Ingredient | Source | Value |  |  |  |
|         | 2/6        |        |       |  |  |  |

|            | Universal Way Lube ISO 68                |       |                      |  |  |  |
|------------|--|-------|----------------------|--|--|--|
| 64742-65-0 | Distillates (petroleum), solvent-dewaxed | OSHA  | No Established Limit |  |  |  |
|            | heavy paraffinic                         | ACGIH | No Established Limit |  |  |  |
|            |  | NIOSH | No Established Limit |  |  |  |

| Contains mineral oil. The | e exposure limits for oil mist are 5 mg/m <sup>3</sup> OSHA PEL and 5 mg/m <sup>3</sup> ACGIH.  |
|---------------------------|---|
| Exposure controls         |   |
| Respiratory               | If workers are exposed to concentrations above the exposure limit they must use the appropriate, certified respirators.   |
| Eyes                      | Protective safety glasses recommended   |
| Skin                      | Avoid skin contact. Protective gloves recommended.  |
| Engineering Controls      | Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and any vapor below occupational exposure limits suitable respiratory protection must be worn. |
| Other Work Practices      | Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.   |
| See section 2 for further | details.  |

# Section 9. Physical and chemical properties

| Information on basic physical and chemical proper  | rties   |
|--|---|
| Physical State                                     | Liquid  |
| Color  | Light amber                                     |
| Odor   | No available information                        |
| Melting point / freezing point                     | No available information                        |
| Initial boiling point and boiling range            | No available information                        |
| Flammability (solid, gas)                          | No available information                        |
| Upper/lower flammability or explosive limits       | Lower Explosive Limit: No available information |
|  | Upper Explosive Limit: No available information |
| Flash Point  | 320 °F  |
| Auto-ignition temperature                          | No available information                        |
| Decomposition temperature                          | No available information                        |
| рН   | No available information                        |
| Viscosity (cSt)                                    | No available information                        |
| Solubility in Water                                | No available information                        |
| Partition coefficient n-octanol/water (Log Kow)    | No available information                        |
| Vapor pressure (Pa)                                | No available information                        |
| Relative Density                                   | No available information                        |
| Vapor Density                                      | No available information                        |
| Evaporation rate (Ether $= 1$ )                    | No available information                        |
| Oxidising properties                               | No available information                        |
| Explosive properties                               | No available information                        |
| Other information                                  |   |
| DMSO extract by IP346: Less than 3.0 wt % (mineral | oil component only)                             |

DMSO extract by IP346: Less than 3.0 wt % (mineral oil component only)

# Section 10. Stability and reactivity

# Reactivity Hazardous Polymerization will not occur. Chemical stability Stable under normal circumstances. Possibility of hazardous reactions No available information Conditions to avoid Avoid high temperatures and contact with incompatible material Incompatible materials No available information Hazardous decomposition products

#### Section 11. Toxicological information

### Acute toxicity

#### Note: When no route specific LD50 data is available for an acute toxin, the converted acute toxicity point estimate was used in the calculation of the product's ATE (Acute Toxicity Estimate).

Possible routes of entry:

Symptoms and effects, both acute and delayed:

No specific symptom data available.

Treat symptomatically.

#### Section 12. Ecological information

#### Toxicity

No additional information provided for this product. See Section 3 for chemical specific data. Aquatic Ecotoxicity

#### 96 hr LC50 fish, ErC50 algae, 48 hr EC50 crustacea, Ingredient mg/L mg/L mg/L Distillates (petroleum), solvent-dewaxed heavy paraffinic -5,000.00, Oncorhynchus 1,000.00, Daphnia magna 1,000.00, Scenedesmus (64742-65-0) mykiss subspicatus

# Persistence and degradability

There is no data available on the preparation itself. **Bioaccumulative potential** No available information Mobility in soil No available information **Results of PBT and vPvB assessment** This product contains no PBT/vPvB chemicals. Other adverse effects

# No available information

### Section 13. Disposal considerations

### Waste treatment methods

Observe all federal, provincial and local regulations when disposing of this substance.

#### Section 14. Transport information
