Compliant SDS for GHS - Canada WHMIS 2015

SAFETY DATA SHEET

| Section 1. Identification | | |
|--|---|--|
| GHS product identifier | : | |
| Product code | : | |
| Other means of identification | : | |
| Product type | : Liquid. | |
| Relevant identified uses of the | ne substance or mixture and uses advised against | |
| Identified uses | | |
| | | |
| Supplier's details | : | |
| | | |
| Manufacturer | : Pinnacle Oil Holdings, LLC 8175-B Allison Ave. Indianapolis, IN 46268 Tel: 317-875-9465 Fax: 317-875-0889 www.pinnacleoil.com Email: SDS@pinnoil.com | |
| Emergency telephone number (with hours of operation) | : CHEMTREC, U.S.: 1-800-424-9300 International: +1-703-527-3887 (24/7) | |
| Section 2. Hazard | (s) identification | |
| OSHA/HCS status | : While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product. | |
| Classification of the substance or mixture | : Not classified. | |
| GHS label elements | | |
| Signal word | : No signal word. | |
| Hazard statements | : No known significant effects or critical hazards. | |
| Precautionary statements | | |
| Prevention | : Not applicable. | |

Tel : +1-888-GHS-7769 (447-7769) / +1-450-GHS-7767 (447-7767) www.kmkregservices.com www.askdrluc.com www.ghssmart.com

Section 2. Hazard(s) identification

| Hazards not otherwise classified (US) | : None known. |
|---------------------------------------|-------------------|
| Disposal | : Not applicable. |
| Storage | : Not applicable. |
| Response | : Not applicable. |

Section 3. Composition/information on ingredients

| Substance/mixture | 1 | Mixture |
|-------------------------------|-----|---------|
| Other means of identification | - 1 | |

| Ingredient name | % (w/w) | CAS number |
|--|----------|------------|
| Distillates (petroleum), hydrotreated heavy paraffinic | 80 - 100 | 64742-54-7 |
| Distillates (petroleum), hydrotreated light naphthenic | 1 - 5 | 64742-53-6 |
| Distillates (petroleum), hydrotreated heavy naphthenic | 1 - 5 | 64742-52-5 |

United States: The exact percentage (concentration) in the composition has been withheld as a trade secret in accordance with paragraph (i) of §1910.1200.

Canada: The exact percentage (concentration) in the composition has been withheld as a trade secret in accordance with the amended HPR as of April 2018.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary first aid measures

| Eye contact | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs. |
|--------------|---|
| Inhalation | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. |
| Skin contact | : Flush contaminated skin with plenty of water. Get medical attention if symptoms occur. |
| Ingestion | : Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |

| fects, acute and delayed |
|---|
| <u>ts</u> |
| : No known significant effects or critical hazards. |
| : No known significant effects or critical hazards. |
| : No known significant effects or critical hazards. |
| : No known significant effects or critical hazards. |
| toms |
| : No known significant effects or critical hazards. |
| : No known significant effects or critical hazards. |
| : No known significant effects or critical hazards. |
| |

Section 4. First aid measures

Ingestion

: No known significant effects or critical hazards.

Indication of immediate medical attention and special treatment needed, if necessary

| Notes to physician | : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. |
|----------------------------|--|
| Specific treatments | : No specific treatment. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. |

See toxicological information (Section 11)

Section 5. Fire-fighting measures

| Extinguishing media | |
|--|---|
| Suitable extinguishing media | : In case of fire, use foam, dry chemical or carbon dioxide. |
| Unsuitable extinguishing media | : Do not use high volume water jet as an extinguisher, as this may spread the fire. |
| Specific hazards arising from the chemical | : No specific fire or explosion hazard. |
| Hazardous thermal decomposition products | : Carbon oxides |
| Special protective actions for fire-fighters | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

Section 6. Accidental release measures

| Personal precautions, protect | quipment and emergency procedures | |
|--------------------------------|--|------|
| For non-emergency personnel | o action shall be taken involving any personal risk or without suitable training. vacuate surrounding areas. Keep unnecessary and unprotected personnel from ntering. Do not touch or walk through spilled material. Put on appropriate persona otective equipment. | al |
| For emergency responders | specialized clothing is required to deal with the spillage, take note of any informati ection 8 on suitable and unsuitable materials. See also the information in "For nor nergency personnel". | |
| Environmental precautions | void dispersal of spilled material and runoff and contact with soil, waterways, drain nd sewers. Inform the relevant authorities if the product has caused environmenta ollution (sewers, waterways, soil or air). | |
| Methods and materials for co | ment and cleaning up | |
| Small spill | op leak if without risk. Move containers from spill area. Dilute with water and mo | p up |

Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Section 6. Accidental release measures

Large spill

: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

| Precautions for safe handling | |
|--|--|
| Protective measures | : Put on appropriate personal protective equipment (see Section 8). |
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. See also Section 8 for additional information on hygiene measures. |
| Conditions for safe storage, including any incompatibilities | : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

Section 8. Exposure controls/personal protection

Control parameters

United States

Occupational exposure limits

| Ingredient name | Exposure limits |
|--|--|
| Distillates (petroleum), hydrotreated heavy paraffinic | ACGIH TLV (United States, 3/2019). TWA: 5 mg/m ³ 8 hours. Form: Inhalable fraction NIOSH REL (United States, 10/2016). TWA: 5 mg/m ³ 10 hours. Form: Mist STEL: 10 mg/m ³ 15 minutes. Form: Mist OSHA PEL (United States, 5/2018). TWA: 5 mg/m ³ 8 hours. |
| Distillates (petroleum), hydrotreated light naphthenic | ACGIH TLV (United States, 3/2019). TWA: 5 mg/m ³ 8 hours. Form: Inhalable fraction NIOSH REL (United States, 10/2016). TWA: 5 mg/m ³ 10 hours. Form: Mist STEL: 10 mg/m ³ 15 minutes. Form: Mist OSHA PEL (United States, 5/2018). TWA: 5 mg/m ³ 8 hours. |
| Distillates (petroleum), hydrotreated heavy naphthenic | ACGIH TLV (United States, 3/2019). TWA: 5 mg/m ³ 8 hours. Form: Inhalable fraction NIOSH REL (United States, 10/2016). TWA: 5 mg/m ³ 10 hours. Form: Mist STEL: 10 mg/m ³ 15 minutes. Form: Mist OSHA PEL (United States, 5/2018). |

| Appropriate engineering controls | : | Good general ventilation should be sufficient to control worker exposure to airborne contaminants. |
|----------------------------------|-------------|---|
| Environmental exposure controls | - | Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. |
| Individual protection measu | <u>ires</u> | |
| Hygiene measures | : | Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. |
| Eye/face protection | : | Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields. |
| Skin protection | | |
| Hand protection | : | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. |
| Body protection | : | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |

Section 8. Exposure controls/personal protection

| Other skin protection | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
|------------------------|--|
| Respiratory protection | : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use. |

Section 9. Physical and chemical properties

| Appearance | |
|--|-------------------|
| Physical state | : Liquid. |
| Color | : Red. |
| Odor | : Petroleum. |
| Odor threshold | : Not available. |
| рН | : Not available. |
| Melting/freezing point | : Not available. |
| Initial boiling point and boiling range | : Not available. |
| Flash point, COC | : >190°C (>374°F) |
| Evaporation rate | : Not available. |
| Flammability (solid, gas) | : Not available. |
| Lower and upper explosive (flammable) limits | : Not available. |
| Vapor pressure | : Not available. |
| Vapor density | : Not available. |
| Relative density | : >0.84 |
| Solubility | : Not available. |
| Solubility in water | : Not available. |
| Partition coefficient: n- octanol/water | : Not available. |
| Auto-ignition temperature | : Not available. |
| Decomposition temperature | : Not available. |
| Kinematic Viscosity at 40°C | : >32 cSt |
| Flow time (ISO 2431) | : Not available. |
| | |

Section 10. Stability and reactivity

| Reactivity | : No specific test data related to reactivity available for this product or its ingredients. | |
|------------------------------------|---|------|
| Chemical stability | : The product is stable. | |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. | |
| Conditions to avoid | : No specific data. | |
| Incompatible materials | : Reactive or incompatible with the following materials: oxidizing materials. | |
| KMK Regulatory Services | Tel : +1-888-GHS-7769 (447-7769) / +1-450-GHS-7767 (447-7767) www.kmkregservices.com www.askdrluc.com www.ghssmart.com | 6/12 |

Section 10. Stability and reactivity

Hazardous decomposition products

: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

Information on toxicological effects

Acute toxicity

| Product/ingredient name | Result | Species | Dose | Exposure |
|--|---------------------------------|------------|----------------------------|----------|
| Distillates (petroleum), hydrotreated light naphthenic | LC50 Inhalation Dusts and mists | Rat | 2180 mg/m ³ | 4 hours |
| Distillates (petroleum), hydrotreated heavy naphthenic | LD50 Oral LD50 Oral | Rat Rat | >5000 mg/kg >5000 mg/kg | - |

Irritation/Corrosion

There is no data available.

Sensitization

There is no data available.

Mutagenicity

There is no data available.

Carcinogenicity

There is no data available.

Reproductive toxicity

There is no data available.

Teratogenicity

There is no data available.

Specific target organ toxicity (single exposure)

There is no data available.

Specific target organ toxicity (repeated exposure)

There is no data available.

Aspiration hazard

| Name | Result |
|------|--|
| | ASPIRATION HAZARD - Category 1 ASPIRATION HAZARD - Category 1 |

Information on the likely : Rour routes of exposure

Toxicity

There is no data available.

Persistence and degradability

There is no data available.

Bioaccumulative potential

There is no data available.

Mobility in soil

Soil/water partition: Not available.coefficient (Koc)

Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

| | DOT Classification | TDG Classification | IMDG | ΙΑΤΑ |
|-------------------------------|--------------------|--------------------|----------------|----------------|
| UN number | Not regulated. | Not regulated. | Not regulated. | Not regulated. |
| UN proper shipping name | - | - | - | - |
| Transport hazard class(es) | - | - | - | - |
| Packing group | - | - | - | - |
| Environmental hazards | No. | No. | No. | No. |

AERG : Not applicable

Additional information

- **DOT Classification** : <u>Reportable quantity</u> 24242.4 lbs / 11006.1 kg [3146.6 gal / 11911.3 L]. Package sizes shipped in quantities less than the product reportable quantity are not subject to the RQ (reportable quantity) transportation requirements.
- **Special precautions for user : Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available. to IMO instruments
